### **Elan & Jenny Allende**

#### **"Mexican Dynasties"**

Married for nine years, Elan and Jenny Allende are each other's best friends and are excited to jump into the next phase of their careers with a new record deal. The Aspen-born Elan and former Puerto Rican beauty queen Jenny share two young children, and have temporarily relocated from Miami to Mexico City to work on their album. Elan has managed a bustling career in commercial real estate, but as he and his wife begin to find their footing in pop music, he is working to mend his strained relationships with his father Fernando and younger brother Adan. Straightforward and brutally honest Jenny looks to solidify her place within the Allende family, despite living at odds with her in-laws, who never approved of her marrying their son.
